

Buying a Plane

Wouldn't it be refreshing to buy a plane from a company that goes out of its way to give you the information you need...up front? In an era when most aircraft brokers take the information supplied by their clients and regurgitate it back on to the Internet -- never knowing how accurate that information is -- Wild Blue strives to correctly represent each and every airplane we sell. That's because the data you see advertised is collected, in person, by Wild Blue. Buyer's who have come to Wild Blue after having looked at other airplanes usually tell us:

- "I wish everyone did it this way. You've eliminated a lot of wasted time."
- "I'm so tired of running around the country looking at misrepresented airplanes. Thanks for providing this information up front."
- "No one else would return my calls. It's nice to see that you guys are interested in actually selling airplanes."

For questions about any of the airplanes we currently have for sale, click the "Planes for Sale" link at the top of this page. Naturally, you may give us a call any time at 888.773.4249 (U.S.) or +1.816.479.2723 (International). If you'd like for us to send you an e-mail before we advertise a new listing, please sign up for our "NewBlue" newsletter on the right side of this page.

Are you looking for an advocate to help you in the purchase of your next airplane? If so, please click the "Request Buyer's Representation" box below to send us an e-mail.
